Dear colleagues,

My name is Mattias Silva. I'm a freelance cinematic artist, editor, cinematographer, and colorist, highly specialized and deeply passionate about narrative storytelling. I'm a member of the Swedish Society of Cinematographers (FSF) and the Swedish Society of Film Editors (SFK). With more than 20 years of experience in the film, television, and most recently the game industry, I can be a great creative partner and help you realize your vision.

Growing up fascinated by stories, I always had a strong passion for films and storytelling—a passion that still burns within me today. I love to express myself visually and creatively, bringing stories to life that have the power to move audiences in a profound way. I wish to continue to grow as a storyteller, collaborate with other creatives, and help bring amazing stories to life.

Although I haven't yet mastered all aspects of Unreal Engine, I am quickly becoming proficient in working with the sequencer, which allows me to produce high-quality cinematic sequences. I am a fast learner and eager to continue expanding my skills with new tools to push storytelling boundaries further.

In addition, I own Netflix Certified film equipment and a post-production suite for any project that may require them. Whether working remotely or on-site, I am confident in my ability to contribute to projects of any size with dedication and expertise.

Thank you for your time and consideration. Let's get together and tell a great story.

Best regards,
Mattias Silva fsf, sfk.
